AMENDMENT

Please amend the above-identified application as follows:

IN THE CLAIMS:

Kindly **ADD** the following new claims 27 – 47.

27.   (NEW) A method for providing a supplementary product sale at a point-of-sale terminal, comprising:

>   receiving a purchase that includes at least one item;

>   determining an upsell based on the at least one item;

>   determining a rounded price for the at least one item and the upsell; and

>   providing an offer to exchange the at least one item and the upsell for the rounded price.

28.   (NEW) The method of claim 27, further comprising:

>   receiving a response to the offer; and

>   exchanging the at least one item and the upsell for the rounded price.

29.   (NEW) An apparatus for providing a supplementary product sale at a point-of-sale terminal, comprising:

>   a storage device; and

>   a processor connected to the storage device,

>   the storage device storing

>>   a program for controlling the processor; and

>   the processor operative with the program to:

>>   receive a purchase that includes at least one item;

>>   determine an upsell based on the at least one item;

determine a rounded price for the at least one item and the upsell; and

provide an offer to exchange the at least one item and the upsell for the rounded price.

30.   (NEW) The apparatus of claim 29, in which the processor is further operative with the program to:

receive a response to the offer; and

exchange the at least one item and the upsell for the rounded price.

31.   (NEW) A method for providing a supplementary product sale at a point-of-sale terminal, comprising:

receiving a purchase that includes at least one item;

determining a record in a database that corresponds to the at least one item;

determining an upsell based on the record;

determining a rounded price for the at least one item and the upsell; and

outputting an indication of the upsell.

32.   (NEW) The method of claim 31, in which the step of determining a rounded price comprises:

determining the rounded price based on the record.

33.   (NEW) The method of claim 31, in which the step of determining a rounded price comprises:

determining a purchase price of the purchase;

determining a rounding multiple based on the record; and

rounding the purchase price in accordance with the rounding multiple, thereby generating the rounded price.

34. (NEW) The method of claim 31, in which the step of determining a rounded price comprises:

determining a purchase price of the purchase;

determining a rounding multiple based on the record; and

rounding the purchase price in accordance with the rounding multiple, thereby generating the rounded price.

35. (NEW) The method of claim 31, in which the step of determining a rounded price comprises:

determining a purchase price of the purchase;

determining an upsell price based on the record; and

adding the purchase price to the upsell price, thereby generating the rounded price.

36. (NEW) The method of claim 31, further comprising:

setting a required payment amount to be the rounded price.

37. (NEW) The method of claim 31, in which the step of determining a record comprises:

determining a plurality of records in the database that each that each correspond to the at least one item;

determining a plurality of upsells, each upsell based on a record of the plurality of records; and

outputting an indication of at least one upsell of the plurality of upsells.

38. (NEW) An apparatus for providing a supplementary product sale at a point-of-sale terminal, comprising:

a storage device; and

a processor connected to the storage device,

the storage device storing

4

a program for controlling the processor; and

the processor operative with the program to:

receive a purchase that includes at least one item;

determine a record in a database that corresponds to the at least one item;

determine an upsell based on the record;

determine a rounded price for the at least one item and the upsell; and

output an indication of the upsell.

39.   (NEW) The apparatus of claim 38, in which the processor is further operative with the program to:

determine the rounded price based on the record.

40.   (NEW) The apparatus of claim 38, in which the processor is further operative with the program to:

determine a purchase price of the purchase;

determine a rounding multiple based on the record; and

round the purchase price in accordance with the rounding multiple, thereby generating a rounded price.

41.   (NEW) The apparatus of claim 38, in which the processor is further operative with the program to:

determine a purchase price of the purchase;

determine an upsell price based on the record; and

add the purchase price to the upsell price, thereby generating the rounded price.

42.   (NEW) The apparatus of claim 38, in which the processor is further operative with the program to:

set a required payment amount to be the rounded price.

43. (NEW) The apparatus of claim 38, in which the processor is further operative with the program to:

determine a plurality of records in the database that each correspond to the at least one item;

determine a plurality of upsells, each upsell based on a record of the plurality of records; and

output an indication of at least one upsell of the plurality of upsells.

44. (NEW) A method comprising:

receiving a purchase that includes at least one item, the purchase defining a purchase price;

determining a record in a database that corresponds to the at least one item, the record specifying a corresponding upsell;

generating a rounded price based on the purchase price and the upsell;

providing an offer to sell the at least one item and the upsell for the rounded price;

receiving a response to the offer; and

selling the at least one item and the upsell for the rounded price if the response indicates acceptance of the offer.

45. (NEW) A method comprising:

receiving signals representative of a plurality of items, the plurality of items defining a purchase price;

determining a record in a database that corresponds to at least one of the items, the record specifying a corresponding upsell and an upsell price;

generating a rounded price based on the purchase price and the upsell price;

providing an offer to sell the item and the upsell for the rounded price;

6

receiving a response to the offer; and

selling the items and the upsell for the rounded price if the response indicates acceptance of the offer.

46.   (NEW) A method comprising:

receiving signals representative of a plurality of items, the plurality of items defining a purchase price;

determining a record in a database that corresponds to at least one of the items, the record specifying a corresponding upsell and an upsell price;

displaying an indication of the upsell and the rounded price;

receiving a response to the offer; and

selling the items and the upsell for the rounded price if the response indicates acceptance of the offer.

47.   (NEW) A method comprising:

receiving key presses that are representative of a plurality of items, the plurality of items defining a purchase price;

determining a record in a database that corresponds to at least one of the items, the record specifying a corresponding upsell and an upsell price;

generating a rounded rice based on the purchase price and the upsell price;

displaying an indication of the upsell and the rounded price;

receiving a key press that indicates acceptance of the offer; and

selling the items and the upsell for the rounded price. --
